

Academic Senate Goals for 2023-24

Proposal: Themes and Lenses

The Senate has shared interest in bringing more attention and focus to teaching and learning, specifically the areas of program completion, classroom practices and community building.

In lieu of creating 2-3 task force groups to work on SMARTER goals, we propose setting one goal to engage in AS Sub-committees and faculty work groups that are leading in key focus areas. We propose setting themes to coordinate on monthly meetings first to hear presentations from governance groups and next to engage in discussion. For each

Month	Themes / Recordings
September	Dual enrollment September 1st session PowerPoint Presentation: Dual Enrollment Update to the AS
October	Collaboration with All Counselors October 6th session October 20
