

# San Elijo Campus

# STUDENT SERVICES &

# ADMINISTRATION BUILDING

## SPECIAL FEATURES

- x The design concept centers on the notion of creating a “learning bluff” that grows naturally from the sloping campus, with the facades of the building serving as the bluff face
- x The design looks to preserve the campus’ Torrey pine – the rarest pine in the United States – and use it to ‘fracture’ the design similar to how a tree can split a boulder in nature

## PROJECT DESCRIPTION

The Student Services and Administration Building will replace the existing Administration building and consolidate key student services into a single location. the new 10,770 square feet facility will provide administrative offices and meeting spaces that will improve the ability of staff to serve the student body, as well as gathering and socialization spaces. Programs and services to be housed in the new building include Admission & Records,

PROJECT PARTNERS: ATHLETIC FIELD RENOVATION, OCEANSIDE CAMPUS	
Project Budget	\$13.7 million
Construction Duration	October 2019 – October 2020
Architect	Little
Program and Construction Manager	Kitchell, in association with Element Consulting and Vic Salazar Communications
Inspector of Record	Consulting Inspection Services
