

Guide for Pre- Physical Therapy Advising:

While most pre-physical therapy students will pursue a Kinesiology major, major-prep for Kinesiology often does not include all DPT prerequisites. So, students may want to consider adding additional courses to their education plan to meet both transfer and DPT prerequisites.

So, students will need:

1. GE
2. Major prep
3. Additional DPT prep depending on target program(s) (at either MCC or transfer school)

Please encourage students to start researching DPT programs & familiarize themselves with these requirements. Here is a [comprehensive chart](#) of PT programs in the US & the various prerequisites from the American Physical Therapy Association.
